5 carefully seletected videos games for Sony PS4, covering 5 different genres. The best and must have PS4 games list.

## Best PS4 Video Games

What's the most anticipate video game console in 2013? It's definitely gonna be the Sony Play Station 4 (PS4). With the eight x86-64 cores and a state of the art 1.84 TFLOPS graphics processor with 8 GB of ultra-fast GDDR5 unified system memory, people can get totally amazing gaming experience when enjoying a video game on PS4. Sony puts gamers first, a the moment they have over 180 games in development.

But PS4 video games are not cheap, so we need make every game counts. So here I collected the best (or must-have) video games lists for Sony PS4. You are guaranteed to have the best entertainments on your PS4!

## Need for Speed – Rivals

The dream game for race game fans. The developer team keeps engaging the fun of racing with action. People can unceasingly enjoy the intensity of the street's ultimate rivalry between cops and racers in an open-road environment. And the Skyrim of racers even offers more fun to gamers.

Like most of this kind of games, they are inevitably being a bit repetitive at times, but in total, it is incentive enough to keep you coming back for more.

## Diablo 3

In my personal point of view, the Diablo 3 might be the Activision Blizzard's latest hit game as the legendary game company is seeking an acquisition chance. And in fact I am not optimistic about the transplant to PS4. The PC version of Diablo 3 is not proved to be a classical like Diablo 2, and even until now the Blizzard is keeping modifying the game in a large scale.

And another problem is, after its last failed PC-to-Console attempt (*Starcraft 64*), will the Diablo 3 be able to turn things around?
