About how to use this tool please follow the guide below step by step.

## Convert Video\_TS to MP4 made east

### Step1: Download Total Media converter free

By reading the paragraphs above, we can have a clear goal: Rip the movie from Blu-ray disc and convert it to MP4 format. All these jobs can be handled with just one program: ImElfin Blu-ray Ripper. Click the buttons below you can get the latest installation build, both PC and Mac users can try it for free.

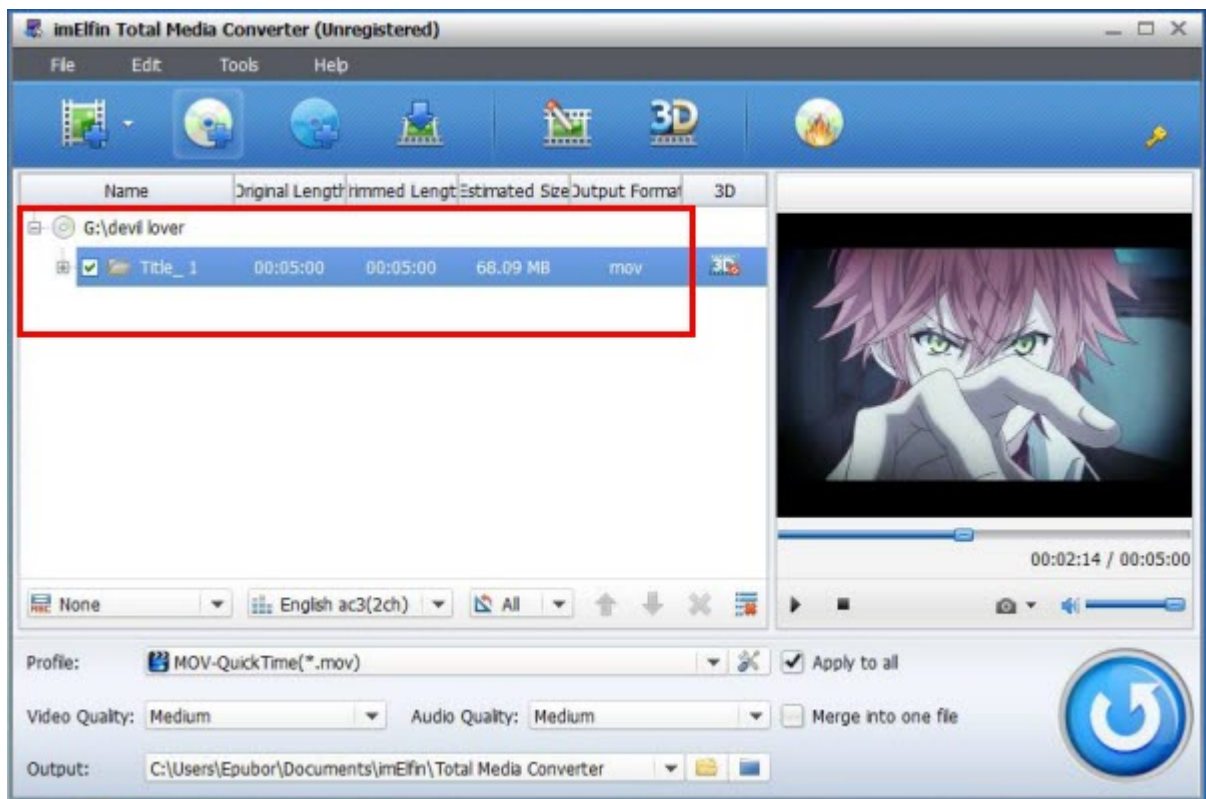

### Step2: Load Video\_TS files

There are 3 ways to import your video\_ts files.

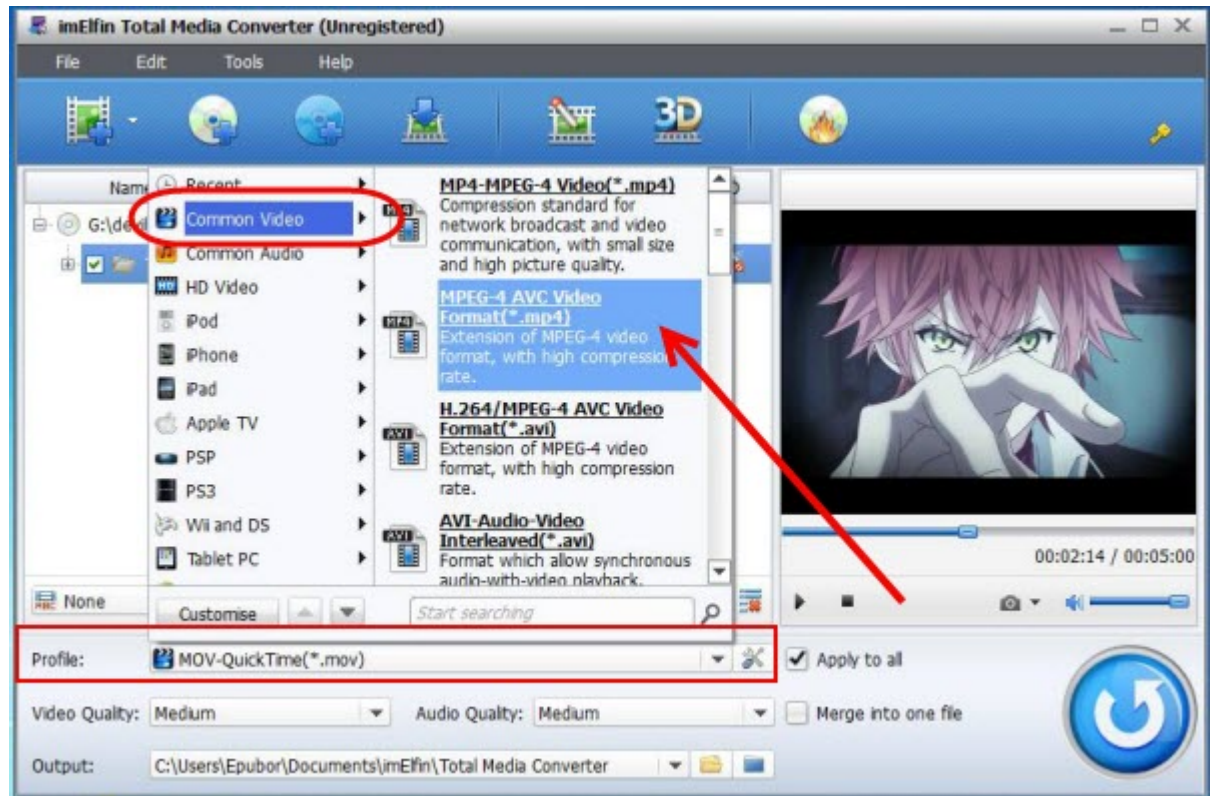

- 1. If your video files are saved on your computer, just click “Add Videos” button to import your video\_ts files.
- 2. Click “Load DVD” to select and import your local video\_ts files.
- 3. If you want to download videos online, it can also help you. Just click “Downlaod Video” and then add them to the interface.

After loading all the video\_ts files you want will be listed in the left pane of this program automatically.

### Step3: Select mp4 as output format

From the profile drop-down list choose the common video to select mp4 as the output format.

Of course if you want to convert video\_ts to iPad, you can directly select iPad as the output format. As the format list contains almost all popular devices, so if you want to put video\_ts on some devices like iPhone, Xbox, you just have to select your wanted devices as the output format, which is the most suitable format for your devices.

## Step4: Convert Video\_TS to MP4

On the bottom-right corner, click the “Convert” button to launch this app to start the converting. Then you will see the conversion clearly.

When it's done, back to the main interface of the tool, and click the output folder to find the output mp4 files. Then all the left is just to import the converted video\_ts files to your devices.
