# How to Transfer MP4 to iPad

Still failed to transfer your mp4 file to iPad after several attempts? Now you can easily get your problem solved by reading this guide.

Usually mp4 video files can be displayed on iPad, but sometimes you still fail to transfer mp4 to iPad due to the codes requirement which is incompatible with your iPad. In order to transfer mp4 to iPad and then play mp4 on iPad successfully, you need to convert mp4 to iPad supported format. Maybe just like me, you are quite confused about applying which tool to convert mp4 to iPad when you encounter this problem for the first time. But you don't need to worry for I have found a wonderful and easy-to-use tool for you. So in the following part I will show you how to convert mp4 to iPad and then copy mp4 files to ipad with ease.

# Firstly, convert mp4 to iPad format

The tool I found for you to convert mp4 to iPad is named <u>Video Converter</u>, it's easy to use and supports batch conversion according to my actual operation. You can now download this tool and follow me to convert your mp4 to iPad compatible format.

Step 1: Install this tool and run it. Click "Add" button on the upper left side or

choose "File" in the menu bar to load your mp4 video file into this tool.

Step 2: In the row of "profile", tap "iPad" to choose a specific iPad device in the
